

Type LP

Utilizing Lindapter's high strength Type AF clamps for heavy loads, the Type LP is available in custom configurations up to 45,000lbs SWL.

LP4 (up to 10,000lbs SWL)

Lifting Point with 4 Type AF clamps

LP6 (up to 22,500lbs SWL)

Lifting Point with 6 Type AF clamps

► The Type LP can be supplied with either an Eye Bolt or Load Ring. Please state your requirement when ordering.

Custom configurations up to 45,000lbs are also available

Lindapter manufactures customized Lifting Points to meet individual requirements, two examples are shown on the right. These custom connections are designed to specific application requirements, such as vertical loads, loads at an angle and rotation of up to 360°. The product designation, i.e. LP(#) determines the number of Type AF clamps.

For example, the LP6 has six M24 Type AF clamps to create a Safe Working Load of up to 22,500lbs (4:1 Factor of Safety). Provide details of the loading, rotation, angle and beam dimensions and Lindapter's team of Engineers will design a connection solution to suit your needs.
