**Type 1055**

This unique solution enables solid plate flooring to be fitted to open-mesh or open-grid flooring using simple hand tools.

- Fast installation from above, no expensive scaffolding needed.
- Stainless steel for high corrosion resistance.
- Superior clamping force from high quality castings.
- Safely retrofit without welding.

**Material:** Cast stainless steel, self colour.

**How to install...**

1. Insert the pre-assembled Type 1055 into the countersunk hole between the grating bars.
2. Use an 5/16” hexagon key to rotate the plug anti-clockwise until the underside of the plug locates against the grating bar.
3. Use a 3/16” hexagon key to rotate the countersunk setscrew clockwise until the grating lug makes contact with the grating bar.
4. Tighten the setscrew to 8 ft lb; the grating lug will be drawn up the screw and will activate the thread locking adhesive.
